# Certificate of Analysis

|                          |                                                                           |
|--------------------------|---------------------------------------------------------------------------|
| Date of Testing:         | 2026-01-26 10:52:32                                                       |
| Date of Next Testing:    | 2029-01-25 10:52:32                                                       |
| Product Name:            | 4,4''-Di-10H-phenoxazin-10-yl[1,1':2',1''-terphenyl]-4',5'-dicyanobenzene |
| CAS Number:              | 1784766-39-7                                                              |
| Specifications & Purity: | sublimed grade, ≥98%                                                      |
| Lot #:                   | A2616097                                                                  |
| SKU #                    | D290140                                                                   |
| Version                  | 1                                                                         |
| Analysis #:              | 652276                                                                    |
| Storage Temperature:     | Room temperature, Argon charged                                           |

| Parameter           | Limit Values          | Result                |
|---------------------|-----------------------|-----------------------|
| Purity(HPLC area)   | 98-100 (%)            | 99.19800 %            |
| Appearance(D290140) | Yellow Powder         | yellow powder         |
| NMR Spectrum 1H     | Conforms to Structure | Conforms to Structure |
