## Certificate of Analysis

Date of Testing: 2026-03-04 15:53:46

Date of Next Testing: 2027-03-04 15:53:46

Product Name: **Lignin Staining Solution (Methyl Red Method)**

CAS Number:

Specifications &amp; Purity: BioReagent, for microscopy, Biological Stain

Lot #: ZJ26F0332385

SKU #: **L1509205**

Version: **1**

Analysis #: 028831

| Parameter                   | Limit Value                                       | Result                                            |
|-----------------------------|---------------------------------------------------|---------------------------------------------------|
| Appearance(L1509205)        | Orange-red transparent solution, free of sediment | Orange-red transparent solution, free of sediment |
| Seal Integrity Testing      | Conform                                           | Conform                                           |
| Odor                        | Fishy smell                                       | Fishy smell                                       |
| Odor                        | Odorless                                          | Odorless                                          |
| Density: 0.97~1.03(g/mL)    | Conform                                           | Conform                                           |
| Lignified cell wall: yellow | Conform                                           | Conform                                           |
