

## Certificate of Analysis

Date of Testing: 2024-06-11 16:12:41

Date of Next Testing: 2027-06-11 16:12:41

Product Name: **Nitrilotri(methylphosphonic acid)**

CAS Number: 6419-19-8

Specifications & Purity:  $\geq 95\%$

Lot #: F2406402

SKU #: **N433216**

Version: **2**

Analysis #: **350391**

Storage Temperature: Argon charged

| Parameter                  | Limit Values                          | Result                                |
|----------------------------|---------------------------------------|---------------------------------------|
| Purity(active constituent) | 95-100 (%)                            | 95.04000 %                            |
| Assay(ATMP)                | 88-100 (%)                            | 88.42000 %                            |
| Appearance(N433216)        | Colorless or White Powder or Crystals | Colorless or White Powder or Crystals |
| NMR Spectrum 1H            | Conforms to Structure                 | Conforms to Structure                 |
