

## Certificate of Analysis

Date of Testing: 2023-08-07 13:20:33

Date of Next Testing: 2026-08-06 13:20:33

Product Name: **Platinum(0)-2,4,6,8-tetramethyl-2,4,6,8-tetravinylcyclotetrasiloxane complex solution**

CAS Number: 68585-32-0

Specifications & Purity: 0.104 M in methylvinylcyclsiloxanes

Lot #: G2321964

SKU #: **P347686**

**Analysis:** **241645**

Storage Temperature: Room temperature

| Parameter                               | Limit Values                                     | Result                                           |
|-----------------------------------------|--------------------------------------------------|--------------------------------------------------|
| Platinum(compared with standard sample) | 1.9-2.1 (%)                                      | 2.00000 %                                        |
| Appearance(P347686)                     | Light Yellow to Dark Yellow to Dark Brown liquid | Light Yellow to Dark Yellow to Dark Brown liquid |
| ICP: Confirms Platinum Component        | Confirmed                                        | Confirmed                                        |
| NMR Spectrum 1H                         | Conforms to Structure                            | Conforms to Structure                            |
