

## Certificate of Analysis

Date of Testing: 2025-04-21 18:42:49

Date of Next Testing: 2029-04-20 18:42:49

Product Name: **Strontium acetate**

CAS Number: 543-94-2

Specifications & Purity:  $\geq 99\%$

Lot #: D2508735

SKU #: **S305337**

Version: **6**

Analysis #: **377774**

Storage Temperature: Argon charged

| Parameter                             | Limit Values             | Result                   |
|---------------------------------------|--------------------------|--------------------------|
| Water by Karl Fischer                 | 0-6 (%)                  | 2.60 %                   |
| Purity(Titration by EDTA) (Dry basis) | 98-102.5 (%)             | 99.00000 %               |
| Appearance (S305337)                  | White Powder or Crystals | White Powder or Crystals |
| X-Ray Diffraction                     | Conforms to Structure    | Conforms to Structure    |
| Infrared spectrum                     | Conforms to Structure    | Conforms to Structure    |
