## Certificate of Analysis

Date of Testing: 2025-09-15 17:30:08

Date of Next Testing: 2029-09-14 17:30:08

Product Name: **Titan yellow**

CAS Number: 1829-00-1

Specifications & Purity: indicator

Lot #: I2502663

SKU # **T112779**

Version **1**

**Analysis #:** **548476**

Storage Temperature: Protected from light, Room temperature, Cool

| Parameter                          | Limit Values                                         | Result                                               |
|------------------------------------|------------------------------------------------------|------------------------------------------------------|
| Ignition Residue (as sulfate)      | ≥40 (%)                                              | 51.74785 %                                           |
| Loss on drying                     | 0-7 (%)                                              | 3.49570 %                                            |
| Appearance (T112779)               | yellow to yellow brown or dark brown powder or solid | yellow to yellow brown or dark brown powder or solid |
| Solubility in H2O                  | Almost transparency                                  | almost transparency                                  |
| Suitability for Magnesium-analysis | to pass test                                         | to pass test                                         |
