Body Protection

impervious clothing, Flame retardant antistatic protective clothing, The type of protective equipment must be

selected according to the concentration and amount of the dangerous substance at the specific
workplace.

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-
purpose
combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering
controls.If the
respirator is the sole means of protection, use a full-face supplied air respirator.Use
respirators and components
tested and approved under appropriate government standards such as
NIOSH (US) or CEN (EU).
