This recommendation is advisory only and must be evaluated by an industrial <br/>hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be <br/>construed as offering an approval for any specific use scenario. <br/>

Body Protection

Complete suit protecting against chemicals, The type of protective equipment must be selected according to the <br/>concentration and amount of the dangerous substance at the specific workplace. <br/>

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N99 <br/>(US) or type P2 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole <br/>means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved <br/>under appropriate government standards such as NIOSH (US) or CEN (EU). <br/>
