impervious clothing, The type of protective equipment must be selected according to the concentration and
 amount
of the dangerous substance at the specific workplace.

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type
 N100
(US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls.If the respirator is
 the sole
means of protection, use a full-face supplied air respirator.Use respirators and components tested
 and approved
under appropriate government standards such as NIOSH (US) or CEN (EU).
