## SECTION 4: First aid measures

### 4.1 Description of first aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

Move the victim into fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration and consult a doctor immediately. Do not use mouth to mouth resuscitation if the victim ingested or inhaled the chemical.

In case of skin contact

Take off contaminated clothing immediately. Wash off with soap and plenty of water. Consult a doctor.

In case of eye contact

Rinse with pure water for at least 15 minutes. Consult a doctor.

If swallowed

Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately.

### 4.2 Most important symptoms and effects, both acute and delayed

no data available

### 4.3 Indication of any immediate medical attention and special treatment needed

no data available

---

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

Suitable extinguishing media

Fire with water mist, dry powder, foam or carbon dioxide extinguishing agent. Avoid using direct-flow water to extinguish fire, which may cause the splash of combustible liquid and spread the fire.

Unsuitable extinguishing media

no data available

### 5.2 Special hazards arising from the substance or mixture

Flammable. In contact with water, it may react violently and even explode. Contact with humid air may cause combustion. In a high temperature fire scene, heated containers or storage tanks are in danger of rupture and explosion.

### 5.3 Advice for firefighters

Fire prevention personnel must wear full-body fire protection clothing and air respirator to extinguish the fire in the upwind direction. Move the container from the fire site to the open place as much as possible. Spray water to keep the fire container cool until the fire fighting is over. In case of abnormal changes or abnormal sounds of containers in the fire scene, they must be evacuated immediately. Do not extinguish fire with water or foam. Extinguishing agent: dry powder.

Avoid dust formation. Avoid breathing mist, gas or vapours. Avoid contacting with skin and eye. Use personal protective equipment. Wear chemical impermeable gloves. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

### 6.2 Environmental precautions

Prevent further spillage or leakage if it is safe to do so. Do not let the chemical enter drains. Discharge into the environment must be avoided.

### 6.3 Methods and materials for containment and cleaning up

Collect and arrange disposal. Keep the chemical in suitable and closed containers for disposal. Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.

### 6.4 Reference to other sections

For disposal see section 13.
