

ALADDIN SCIENTIFIC CORPORATION

14078 Meridian Parkway, Riverside, CA. 92518

## Specification Sheet

Product Name: **5-(Aminomethyl)-2-chloropyridine**  
Specifications & Purity: **≥97%**  
SKU #: **A113916**

| Parameter            | Limit Values                                                                                     |
|----------------------|--------------------------------------------------------------------------------------------------|
| Purity(GC)           | 97-100 (%)                                                                                       |
| Appearance (A113916) | White to Orange to Green to Tan and/or Colorless to Tan Liquid or powder to crystalline to Solid |
| Infrared spectrum    | Conforms to Structure                                                                            |
