## Specification Sheet

|                          |                                                              |
|--------------------------|--------------------------------------------------------------|
| Product Name:            | <b>2-Amino-4H,5H,6H-cyclopenta[b]thiophene-3-carboxamide</b> |
| Specifications & Purity: | 10mM in DMSO                                                 |
| SKU #                    | <b>A425913-1ml</b>                                           |

| Parameter           | Limit Values          |
|---------------------|-----------------------|
| Concentration       | 9-11 (mmol/L)         |
| Proton NMR spectrum | Conforms to Structure |
