## Specification Sheet

|                          |                                          |
|--------------------------|------------------------------------------|
| Product Name:            | <b>Bis(3,5-dichlorophenyl) disulfide</b> |
| Specifications & Purity: | ≥99%                                     |
| SKU #                    | <b>B101390</b>                           |

| Parameter             | Limit Values          |
|-----------------------|-----------------------|
| Purity(GC)            | 99-100 (%)            |
| Melting point         | 65-68 (°C)            |
| Solubility in Toluene | almost transparency   |
| NMR Spectrum 1H       | Conforms to Structure |
