## Specification Sheet

|                          |                                             |
|--------------------------|---------------------------------------------|
| Product Name:            | <b>1,2,4-Benzenetricarboxylic anhydride</b> |
| Specifications & Purity: | ≥97%                                        |
| SKU #                    | <b>B104832</b>                              |

| Parameter             | Limit Values             |
|-----------------------|--------------------------|
| Purity(HPLC)          | 97-100 (%)               |
| Melting point         | 165-170 (°C)             |
| Appearance (B104832)  | White to Off-White Chips |
| Infrared spectrum     | Conforms to Structure    |
| Solubility in Acetone | almost transparency      |
