

## Specification Sheet

|                          |                                         |
|--------------------------|-----------------------------------------|
| Product Name:            | <b>Brain Natriuretic Peptide-32 rat</b> |
| Specifications & Purity: | ≥97% (HPLC)                             |
| SKU #                    | <b>B118772</b>                          |

| Parameter                                 | Limit Values                       |
|-------------------------------------------|------------------------------------|
| Purity(HPLC)                              | 97-100 (%)                         |
| Peptide content                           | 65-100 (%)                         |
| Appearance (B118772)                      | White powder                       |
| Solubility in H <sub>2</sub> O or 1% AcOH | Clear colorless solution at 1mg/ml |
