

## Specification Sheet

|                          |                                     |
|--------------------------|-------------------------------------|
| Product Name:            | <b>3-Bromo-4-fluorobenzonitrile</b> |
| Specifications & Purity: | 99%                                 |
| SKU #                    | <b>B120882</b>                      |

| Parameter            | Limit Values                          |
|----------------------|---------------------------------------|
| Purity(GC)           | 99-100 (%)                            |
| Melting point        | 55-58 (°C)                            |
| Appearance (B120882) | white to light yellow solid or powder |
| Proton NMR spectrum  | Conforms to Structure                 |
