## Specification Sheet

|                          |                                |
|--------------------------|--------------------------------|
| Product Name:            | <b>3-(Bromoacetyl)coumarin</b> |
| Specifications & Purity: | ≥95%(HPLC)                     |
| SKU #                    | <b>B151920</b>                 |

| Parameter            | Limit Values                                |
|----------------------|---------------------------------------------|
| Purity(HPLC)         | 95-100 (%)                                  |
| Melting point        | 163-168 (°C)                                |
| Appearance (B151920) | white to yellow powder , crystals or fibers |
| Proton NMR spectrum  | Conforms to Structure                       |
