## Specification Sheet

|                          |                                                  |
|--------------------------|--------------------------------------------------|
| Product Name:            | <b>1-(4-Bromophenyl)-1,2,2-triphenylethylene</b> |
| Specifications & Purity: | >98.0%(HPLC)                                     |
| SKU #                    | <b>B152924</b>                                   |

| Parameter            | Limit Values                            |
|----------------------|-----------------------------------------|
| Purity(HPLC)         | 98-100 (%)                              |
| Melting point        | 157-161 (°C)                            |
| Appearance (B152924) | White to Light yellow powder to crystal |
| Proton NMR spectrum  | Conforms to Structure                   |
