

## Specification Sheet

|                          |                                                         |
|--------------------------|---------------------------------------------------------|
| Product Name:            | <b>8-Benzyloxy-5-(2-bromo-acetyl)-1h-quinolin-2-one</b> |
| Specifications & Purity: | ≥98%                                                    |
| SKU #                    | <b>B178688</b>                                          |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC area)        | 98-100 (%)            |
| LC-MS for identification | Conforms              |
| NMR Spectrum 1H          | Conforms to Structure |
