## Specification Sheet

Product Name: **(4-Benzyl-2-morpholinyl)methanamine**  
Specifications & Purity: **≥98%**  
SKU #: **B179409**

| Parameter                | Limit Values                                                    |
|--------------------------|-----------------------------------------------------------------|
| Appearance(B179409)      | Colorless to light yellow to pale yellow to yellow brown liquid |
| Purity(GC)               | 98-100 (%)                                                      |
| NMR Spectrum 1H          | Conforms to Structure                                           |
| GC-MS for identification | Conforms                                                        |
