## Specification Sheet

|                          |                                                                                              |
|--------------------------|----------------------------------------------------------------------------------------------|
| Product Name:            | <b>8-Benzyl-3-exo-(5-isopropyl-3-methyl-4H-1,2,4-triazol-4-yl)-8-azabicyclo[3.2.1]octane</b> |
| Specifications & Purity: | 95%                                                                                          |
| SKU #                    | <b>B343978</b>                                                                               |

| Parameter            | Limit Values          |
|----------------------|-----------------------|
| Appearance (B343978) | White solid or powder |
| Purity(HPLC)         | 95-100 (%)            |
| Melting point        | 147-151 (°C)          |
| Proton NMR spectrum  | Conforms to structure |
