## Specification Sheet

|                          |                                                |
|--------------------------|------------------------------------------------|
| Product Name:            | <b>5-Bromo-2-(trifluoromethyl)benzaldehyde</b> |
| Specifications & Purity: | ≥98%                                           |
| SKU #                    | <b>B578608</b>                                 |

| Parameter                    | Limit Values          |
|------------------------------|-----------------------|
| Purity(GC)                   | 98-100 (%)            |
| Proton NMR spectrum          | Conforms to Structure |
| <sup>19</sup> F NMR Spectrum | Conforms to structure |
