

## Specification Sheet

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| Product Name:            | <b>O-(6-Chlorobenzotriazol-1-yl)-N,N,N',N'-tetramethyluronium hexafluorophosphate</b> |
| Specifications & Purity: | 98%                                                                                   |
| SKU #                    | <b>C106175</b>                                                                        |

| Parameter            | Limit Values              |
|----------------------|---------------------------|
| Melting point        | 185-190 (°C)              |
| Purity(HPLC)         | 98-100 (%)                |
| Loss on drying       | 0-0.5 (%)                 |
| Appearance (c106175) | White to Off-White Powder |
| Proton NMR spectrum  | Conforms to Structure     |
