

## Specification Sheet

Product Name: **6-Carboxyfluorescein diacetate**  
Specifications & Purity: **95%**  
SKU #: **C107601**

| Parameter                                                                                        | Limit Values           |
|--------------------------------------------------------------------------------------------------|------------------------|
| Purity(HPLC)                                                                                     | 95-100 (%)             |
| Appearance (C107601)                                                                             | White to Yellow Powder |
| Identity by NMR(CDCl <sub>3</sub> )                                                              | Consistent             |
| Proton NMR spectrum                                                                              | Conforms to Structure  |
| Solubility in CHCl <sub>3</sub> /EtOH (1/1) , Clear,Colorless to Light Yellow,9.80 - 10.20 mg/ml | pass                   |
