

## Specification Sheet

|                          |                                         |
|--------------------------|-----------------------------------------|
| Product Name:            | <b>(±)-Citronellal</b>                  |
| Specifications & Purity: | analytical standard, $\geq 98.0\%$ (GC) |
| SKU #                    | <b>C118628</b>                          |

| Parameter                   | Limit Values                     |
|-----------------------------|----------------------------------|
| Purity(GC)                  | 98-100 (%)                       |
| Refractive index $n_{20/D}$ | 1.446-1.456                      |
| Appearance (C118628)        | Colorless to light yellow liquid |
| Proton NMR spectrum         | Conforms to Structure            |
