

## Specification Sheet

|                          |                                       |
|--------------------------|---------------------------------------|
| Product Name:            | <b>4'-Chloro-3'-nitroacetophenone</b> |
| Specifications & Purity: | 98%                                   |
| SKU #                    | <b>C122008</b>                        |

| Parameter            | Limit Values                                    |
|----------------------|-------------------------------------------------|
| Purity(GC)           | 98-100 (%)                                      |
| Melting point        | 97-101 (°C)                                     |
| Appearance (C122008) | white to yellow powder, crystals, and/or chunks |
| Proton NMR spectrum  | Conforms to structure                           |
