## Specification Sheet

|                          |                                                                                |
|--------------------------|--------------------------------------------------------------------------------|
| Product Name:            | (6-Cyclopropylpyridin-3-yl)boronic acid(Contains varying amounts of anhydride) |
| Specifications & Purity: | ≥97%                                                                           |
| SKU #                    | C190309                                                                        |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 97-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
