

## Specification Sheet

|                          |                                                                                  |
|--------------------------|----------------------------------------------------------------------------------|
| Product Name:            | <b>Carbonylchlorohydrido[bis(2-di-i-propylphosphinoethyl)amine]ruthenium(II)</b> |
| Specifications & Purity: | 97%                                                                              |
| SKU #                    | <b>C282751</b>                                                                   |

| Parameter                   | Limit Values          |
|-----------------------------|-----------------------|
| Purity(based on Ru)         | 97-100 (%)            |
| NMR Spectrum <sup>1</sup> H | Conforms to Structure |
| Phosphorus NMR spectrum     | conforms to structure |
