

## Specification Sheet

|                          |                          |
|--------------------------|--------------------------|
| Product Name:            | <b>Cefprozil hydrate</b> |
| Specifications & Purity: | ≥90% (on dry basis)      |
| SKU #                    | <b>C302631</b>           |

| Parameter             | Limit Values                               |
|-----------------------|--------------------------------------------|
| Appearance (C302631)  | white to off-white to yellow powder, solid |
| Water by Karl Fischer | 3.5-6.5 (%)                                |
| Purity(HPLC)          | 90-100 (%)                                 |
| Proton NMR spectrum   | Conforms to structure                      |
