## Specification Sheet

|                          |                                                   |
|--------------------------|---------------------------------------------------|
| Product Name:            | <b>Cu(II) meso-Tetra(4-carboxyphenyl)porphine</b> |
| Specifications & Purity: | ≥95%                                              |
| SKU #                    | <b>C356368</b>                                    |

| Parameter                      | Limit Values    |
|--------------------------------|-----------------|
| LC-MS for identification       | Conforms        |
| Carbon by Elemental Analysis   | 62.92-72.39 (%) |
| Nitrogen by Elemental Analysis | 6.12-7.04 (%)   |
| ICP: Confirms Copper Component | Conforms        |
| Copper(Cu)                     | 6.94-7.99 (%)   |
