

## Specification Sheet

|                          |                     |
|--------------------------|---------------------|
| Product Name:            | <b>Coumarin 153</b> |
| Specifications & Purity: | Dye content 99 %    |
| SKU #                    | <b>C432849</b>      |

| Parameter           | Limit Values                   |
|---------------------|--------------------------------|
| Appearance(C432849) | Yellow to Gold Powder,Crystals |
| Purity(HPLC)        | 99-100 (%)                     |
| Melting point       | 164-168 (°C)                   |
| Proton NMR spectrum | Conforms to Structure          |
