

Specification Sheet

Product Name:	Concanavalin A from Canavalia ensiformis (Jack bean)
Specifications & Purity:	BioReagent, for cell culture, Type IV-S, lyophilized powder, aseptically processed
SKU #	C755215

Parameter	Limit Values
Agglutination Activity(Lectin)	≤ 64 (μg/ml)
Appearance(C755215)	White to Off white Powder
Mitogenic Activity Bromodeoxyuridine is incorporated in human peripheral blood mononuclear cell at < or= 75 ug Lectin/mL	Pass
Solubility(Colorless , Slightly Hazy to Hazy , 10 mg/mL in H2O)	passes test
Sterility(Negative)	pass
