## Specification Sheet

|                          |                            |
|--------------------------|----------------------------|
| Product Name:            | <b>2,7-Dibromofluorene</b> |
| Specifications & Purity: | 98%                        |
| SKU #                    | <b>D105395</b>             |

| Parameter            | Limit Values                          |
|----------------------|---------------------------------------|
| Purity(HPLC)         | 98-100 (%)                            |
| Melting point        | 164-167 (°C)                          |
| Appearance (D105395) | white to off-white crystalline powder |
| Proton NMR spectrum  | Conforms to Structure                 |
