

## Specification Sheet

Product Name: **Diphenylacetylene**  
Specifications & Purity: **99%**  
SKU #: **D106402**

| Parameter                | Limit Values                                       |
|--------------------------|----------------------------------------------------|
| Purity(GC)               | 99-100 (%)                                         |
| Melting point            | 58-62 (°C)                                         |
| Appearance (D106402)     | White to Yellow to Brown Powder,crystals or Chunks |
| Proton NMR spectrum      | Conforms to Structure                              |
| Solubility in 95% EtOH , | Colorless,Clear to Slightly Hazy,50mg/ml pass      |
