

## Specification Sheet

|                          |                                        |
|--------------------------|----------------------------------------|
| Product Name:            | <b>Diiodo(p-cymene)ruthenium dimer</b> |
| Specifications & Purity: | Ru 20.5%                               |
| SKU #                    | <b>D118512</b>                         |

| Parameter            | Limit Values                                              |
|----------------------|-----------------------------------------------------------|
| Ruthenium (Ru)       | 19.8-21.5 (%)                                             |
| Appearance (D118512) | Red to Very Dark Red Solid Powder, Crystals and/or Chunks |
| Proton NMR spectrum  | Conforms to Structure                                     |
