## Specification Sheet

|                          |                                                                              |
|--------------------------|------------------------------------------------------------------------------|
| Product Name:            | <b>Diethyl Phthalate Acid Ester in Methanol Certified Reference Material</b> |
| Specifications & Purity: | 238.0ug/mL, Solvent: methanol                                                |
| SKU #                    | <b>D119856</b>                                                               |

| Parameter     | Limit Values       |
|---------------|--------------------|
| Concentration | 214.2-261.8 (mg/L) |
