

## Specification Sheet

|                          |                                                           |
|--------------------------|-----------------------------------------------------------|
| Product Name:            | <b>4,4'-Dichloro-<math>\alpha</math>-methylbenzhydrol</b> |
| Specifications & Purity: | $\geq 96\%$                                               |
| SKU #                    | <b>D154165</b>                                            |

| Parameter                | Limit Values                               |
|--------------------------|--------------------------------------------|
| Proton NMR spectrum      | Conforms to Structure                      |
| Appearance(D154165)      | White to Orange to Green powder to crystal |
| GC-MS for identification | Conforms                                   |
| Purity(HPLC area)        | 96-100 (%)                                 |
