

## Specification Sheet

|                          |                      |
|--------------------------|----------------------|
| Product Name:            | <b>Dinitrodurene</b> |
| Specifications & Purity: | ≥97%                 |
| SKU #                    | <b>D155724</b>       |

| Parameter           | Limit Values                            |
|---------------------|-----------------------------------------|
| Purity(GC)          | 97-100 (%)                              |
| NMR Spectrum 1H     | Conforms to structure                   |
| Appearance(D155724) | White to Light yellow powder to crystal |
| Melting point       | 207-217 (°C)                            |
