## Specification Sheet

|                          |                                                        |
|--------------------------|--------------------------------------------------------|
| Product Name:            | <b>1,3-Di-Boc-2-(trifluoromethylsulfonyl)guanidine</b> |
| Specifications & Purity: | ≥95%(HPLC)                                             |
| SKU #                    | <b>D168492</b>                                         |

| Parameter            | Limit Values          |
|----------------------|-----------------------|
| Melting point        | 111-118 (°C)          |
| Purity(HPLC)         | 95-100 (%)            |
| Appearance (D168492) | White powder          |
| Proton NMR spectrum  | Conforms to Structure |
