## Specification Sheet

|                          |                                                   |
|--------------------------|---------------------------------------------------|
| Product Name:            | <b>3-(Dimethylchlorosilyl)propyl methacrylate</b> |
| Specifications & Purity: | 95%, with stabilizer BHT                          |
| SKU #                    | <b>D168986</b>                                    |

| Parameter                | Limit Values                               |
|--------------------------|--------------------------------------------|
| Purity(GC)               | 95-100 (%)                                 |
| NMR Spectrum 1H          | Conforms to Structure                      |
| GC-MS for identification | Conforms                                   |
| Appearance(D168986)      | Colorless to Almost colorless clear liquid |
