## Specification Sheet

|                          |                                         |
|--------------------------|-----------------------------------------|
| Product Name:            | <b>2,3-Dibromofuran</b>                 |
| Specifications & Purity: | ≥95%, stabilized with CaCO <sub>3</sub> |
| SKU #                    | <b>D169432</b>                          |

| Parameter                            | Limit Values          |
|--------------------------------------|-----------------------|
| Purity(GC)                           | 95-100 (%)            |
| Proton NMR spectrum                  | Conforms to Structure |
| GC-MS for identification             | Conforms              |
| Stabilizer (≤0.5% calcium carbonate) | Conforms              |
