## Specification Sheet

|                          |                                                                  |
|--------------------------|------------------------------------------------------------------|
| Product Name:            | <b>5-(Difluoromethyl)-1-methyl-1H-pyrazole-4-carboxylic acid</b> |
| Specifications & Purity: | ≥97%                                                             |
| SKU #                    | <b>D302611</b>                                                   |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 97-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
