## Specification Sheet

|                          |                                                                                               |
|--------------------------|-----------------------------------------------------------------------------------------------|
| Product Name:            | <b>3-Difluoromethoxy-4-fluoro-benzeneboronic acid (contains varying amounts of Anhydride)</b> |
| Specifications & Purity: | 95%                                                                                           |
| SKU #                    | <b>D335148</b>                                                                                |

| Parameter                    | Limit Values          |
|------------------------------|-----------------------|
| Proton NMR spectrum          | Conforms to structure |
| <sup>19</sup> F NMR spectrum | Conforms to Structure |
| Purity(HPLC)                 | 95-100 (%)            |
