

## Specification Sheet

|                          |                                         |
|--------------------------|-----------------------------------------|
| Product Name:            | <b>Dimethyl 1,4-Phenylenediacrylate</b> |
| Specifications & Purity: | 95%                                     |
| SKU #                    | <b>D351112</b>                          |

| Parameter           | Limit Values                                                   |
|---------------------|----------------------------------------------------------------|
| Appearance(D351112) | off-white to Light orange to Yellow to Green powder to crystal |
| Purity(HPLC)        | 95-100 (%)                                                     |
| Melting point       | 166-170 (°C)                                                   |
| Proton NMR spectrum | Conforms to Structure                                          |
