

## Specification Sheet

|                          |                                                                 |
|--------------------------|-----------------------------------------------------------------|
| Product Name:            | <b>2-(Diiodomethyl)-4,4,5,5-tetramethyl-1,3,2-dioxaborolane</b> |
| Specifications & Purity: | ≥98%(GC)(T)                                                     |
| SKU #                    | <b>D404359</b>                                                  |

| Parameter           | Limit Values                            |
|---------------------|-----------------------------------------|
| Purity(GC)          | 98-100 (%)                              |
| Appearance(D404359) | White to Light yellow powder to crystal |
| Melting point       | 76-82 (°C)                              |
| Proton NMR spectrum | Conforms to Structure                   |
