

## Specification Sheet

|                          |                                                                      |
|--------------------------|----------------------------------------------------------------------|
| Product Name:            | <b>Dimesityl(trifluoromethyl)sulfonium Trifluoromethanesulfonate</b> |
| Specifications & Purity: | <b>&gt;98.0%(HPLC)</b>                                               |
| SKU #                    | <b>D404379</b>                                                       |

| Parameter           | Limit Values                            |
|---------------------|-----------------------------------------|
| Appearance(D404379) | White to Light yellow powder to crystal |
| Purity(HPLC)        | 98-100 (%)                              |
| Proton NMR spectrum | Conforms to structure                   |
