## Specification Sheet

|                          |                             |
|--------------------------|-----------------------------|
| Product Name:            | <b>4-Ethyl-1-octyn-3-ol</b> |
| Specifications & Purity: | ≥97%(GC)                    |
| SKU #                    | <b>E156477</b>              |

| Parameter                | Limit Values                                           |
|--------------------------|--------------------------------------------------------|
| Purity(GC)               | 97-100 (%)                                             |
| NMR Spectrum 1H          | Conforms to structure                                  |
| Appearance(E156477)      | Colorless to Light yellow to Light orange clear liquid |
| GC-MS for identification | Conforms                                               |
