## Specification Sheet

|                          |                                                                                         |
|--------------------------|-----------------------------------------------------------------------------------------|
| Product Name:            | <b>Ethyl 2-amino-7-isopropyl-5-oxo-5H-[1]benzopyrano[2 , 3-b]pyridine-3-carboxylate</b> |
| Specifications & Purity: | ≥98%                                                                                    |
| SKU #                    | <b>E727151</b>                                                                          |

| Parameter                | Limit Values               |
|--------------------------|----------------------------|
| Purity(HPLC)             | 98-100 (%)                 |
| Appearance(E727151)      | White to off-white (Solid) |
| LC-MS for identification | Conforms                   |
| Proton NMR spectrum      | Conforms to Structure      |
