## Specification Sheet

|                          |                                                                         |
|--------------------------|-------------------------------------------------------------------------|
| Product Name:            | <b>Formylphenylboronic acid (contains varying amounts of Anhydride)</b> |
| Specifications & Purity: | <b>≥98%</b>                                                             |
| SKU #                    | <b>F103251</b>                                                          |

| Parameter                        | Limit Values                                                                   |
|----------------------------------|--------------------------------------------------------------------------------|
| Melting point                    | 115-120 (°C)                                                                   |
| Purity(Neutralization titration) | 97.5-114 (%)                                                                   |
| Appearance (F103251)             | White to cream to pale pink to orange Crystals or powder or crystalline powder |
| Infrared spectrum                | Conforms to Structure                                                          |
