## Specification Sheet

Product Name: **Flunarizine 2HCl**  
Specifications & Purity: **≥99%**  
SKU #: **F129526**

| Parameter                                                               | Limit Values          |
|-------------------------------------------------------------------------|-----------------------|
| Water by Karl Fischer                                                   | 0-2 (%)               |
| Purity(HPLC)                                                            | 99-100 (%)            |
| Appearance (F129526)                                                    | White powder          |
| Proton NMR spectrum                                                     | Conforms to Structure |
| Solubility in CHCL <sub>3</sub> /MeOH (1/1) , Colorless Clear(50 mg/ml) | pass                  |
